Module Code CIT2011

Assignment IA #2- Craft and Paint

Class Day & Time Monday, 12:00 Pm

BUSINESS DESCRIPTION

Business Name: Craft & Paint with us JA

Business Type: For-Profit E-Commerce Creative Arts & Lifestyle

Location: St. Ann, Jamaica

Contact Email: 2006650@utech.edu.jm

Slogan: "Paint. Sip. Create. It's a Vibe!"

Logo Description

The logo is two paint brushes displayed inside a white circle banner header. The circular white frame represents purity and creativity, while the background communicates luxury, artistry, and originality. The brand name "Craft & Paint with Us JA" is displayed in the Dancing Script cursive font.

Mission Statement

To inspire creativity and celebrate Jamaican culture through guided paint-and-sip experiences that produce wearable, handcrafted tote bag art. We aim to make artistry accessible and enjoyable for everyone, regardless of skill level.

Vision Statement

To become Jamaica's most beloved creative lifestyle brand, empowering every person to discover their inner artist while celebrating the vibrant beauty of our island's culture, flora, and heritage.

Business Description

Craft & Paint with Us JA is a for-profit e-commerce business based in St. Ann, Jamaica. The business offers hand-painted canvas tote bags as products, each inspired by the natural beauty, wildlife, and national pride of Jamaica. Customers can purchase ready-made painted tote bags online or book a live guided paint-and-sip session where they paint their own design with the help of an expert artist. All materials are included in the price of the session. The business targets locals, tourists, corporate groups, and gift shoppers who want a unique, authentic Jamaican creative experience.

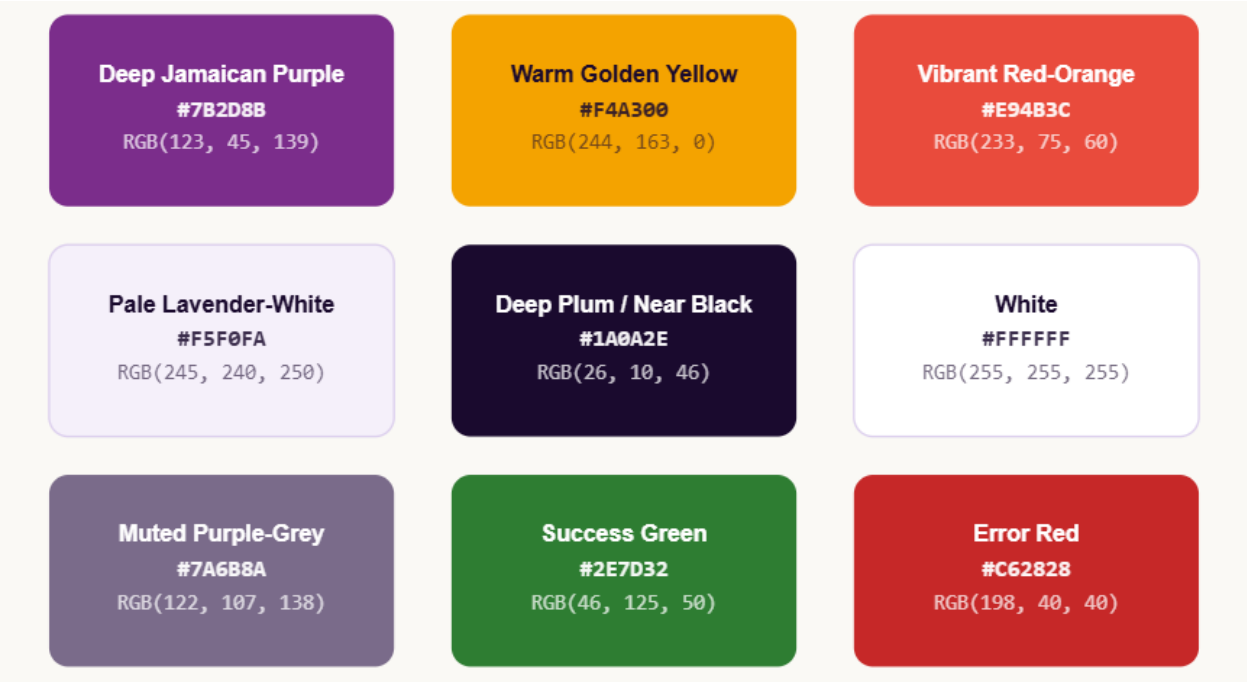
Intended Audience

The website targets the following groups:

- Adults aged 18–45 looking for fun, creative social experiences in Jamaica
- Tourists and visitors seeking authentic Jamaican cultural activities and souvenirs
- Corporate groups and event planners looking for unique team-building activities
- Art enthusiasts and hobbyists interested in affordable guided painting sessions
- Gift shoppers looking for unique, handcrafted Jamaican tote bags
- Students and young professionals who appreciate locally made, eco-friendly products

Color Palette

The psychology of color plays a critical role in web design and marketing. The following color palette was chosen deliberately to reflect the brand identity of Craft & Paint with Us JA.



Deep Jamaican Purple - #7B2D8B -RGB (123, 45, 139)- Purple is strongly associated with creativity, imagination, and royalty. This is the primary brand color used on the banner header, buttons, headings, and the navigation bar underline. It communicates that Craft & Paint with Us JA is a premium yet artistic brand.

Warm Golden Yellow - F4A300 -RGB (244, 163, 0)- Gold and yellow represent warmth, optimism, energy, and happiness. This is used as the secondary accent color on taglines, discount badges, footer brand text, and hover highlights. It reflects the sunny, joyful spirit of Jamaica and adds vibrancy against the purple.

Vibrant Red-Orange - E94B3C -RGB (233, 75, 60) Red orange creates a sense of urgency, excitement, and passion. This accent color is used on product badges, the cart count indicator, remove buttons, and call-to-action elements where the user needs to take immediate action.

Pale Lavender-White -#F5F0FA -RGB (245, 240, 250) Soft lavender-white conveys cleanliness, calm, and openness. This is the page background color across the entire website. It allows the

purple branding to stand out without creating harsh contrast, giving the site an airy and welcoming feel.

Deep Plum / Near Black -#1A0A2E -RGB (26, 10, 46) Deep plum communicates sophistication, depth, and elegance. This very dark color is used as the footer background, anchoring the bottom of every page with a sense of weight and professionalism that balances the lighter tones above.

White -#FFFFFF -RGB (255, 255, 255) White represents purity, simplicity, and clarity. It is used as background for content cards, form inputs, the navigation bar, and the logo circle in the banner header. It creates clear, readable areas that give the room to rest.

Muted Purple Grey -#7A6B8A -RGB (122, 107, 138) Muted tones suggest subtlety and support without drawing attention. This color is used for secondary body text, descriptions, captions, and placeholder text throughout the site. It softens the contrast so that headings and key information stand out more clearly.

Success Green -#2E7D32 -RGB (46, 125, 50) Green universally signals positivity, approval, and go-ahead. This color is used for successful messages after form submissions, discount indicators on the cart page, and confirmation notifications. It reassures the user that an action was completed successfully.

Error Red -#C62828 -RGB (198, 40, 40) Deep red communicates danger, warning, and the need for attention. This color is used exclusively for form validation error messages and error notifications. It immediately draws the user's eye to fields that need to be corrected before proceeding.

Color Psychology Justification: Purple was chosen as the primary brand color because it is strongly associated with creativity, imagination, and royalty -qualities that align perfectly with an artisan paint-and-sip business. Gold/yellow accents evoke the warmth and sunshine of Jamaica, while the red-orange accent creates energy and urgency on call-to-action elements. The overall palette communicates a premium yet fun and vibrant brand personality that appeals to the target audience.

Typography

Playfair Display -Display / Headings Playfair Display is used for all h1 to h4 headings across every page of the website. It is an elegant serif font that conveys artistry, sophistication, and a sense of refinement. This font was chosen because its classic letterforms reflect the creative and premium nature of the Craft & Paint with Us JA brand.

Lato -Body Text Lato is used for all body copy, labels, navigation links, form fields, and button text throughout the website. It is a clean, modern sans-serif font that is highly readable

even at small sizes, making it ideal for long-form reading and everyday interface text. Its neutral yet friendly character balances well against the more decorative display and accent fonts.

Dancing Script -Accent / Logo Dancing Script is used for the brand name in the banner header, section sub-labels, and decorative accent text. It is a flowing cursive font that evokes the feeling of handwriting and hand-crafted artistry, directly reflecting the paint-and-sip nature of the business. It adds personality and warmth to the brand identity without overwhelming the overall design.
